

## Senior Vice President - IT & Bank Operations Testimonial

"I would like to thank Management Recruiters of Newburgh for placing me in my "dream" job. They contacted me about 18 months ago, while I was employed at a bank in Lexington, KY, about a position near Louisville. Normally, I wouldn't consider making a move from my hometown, but just the "right words" were said to make me listen. I was told about a job at a much larger bank with quite a challenging position. The job has been more than I had ever hoped for. I was promoted to Senior Vice President within one year of coming on board. My new position has given me so many new opportunities, use of my skills and the pleasure of meeting many new friends. I have been surrounded with very talented peers and a support system from my manager, the President & CEO, the members of my staff and the Board. I sold my house in Lexington to the first person that came to see it, found a new home in Bardstown (halfway so my husband could still commute to Lexington) and moved in 3 weeks from my first day on the job. This would never have been possible without the persistence and exceptional courtesies shown by Management Recruiters of Newburgh.

Thanks again!! "

Linda Critchfield

Senior Vice President
